ABSTRACT

To address the challenges created by increased student diversity, expanding enrollment, and shrinking budgets, Midlands Technical College, in South Carolina, designed a student success program in 1989 to enhance student retention, student satisfaction, and student goal achievement. Key components of the system include: (1) a year-to-year and term-to-term student cohort tracking system; (2) collegewide training in customer service; (3) initiation of student educational plans at college entry; (4) a computer-based intervention and communication system; (5) a growing emphasis on academic advisement; (6) interface of assessment with advisement and orientation; and (7) specific initiatives targeted at at-risk groups. The program was developed with collegewide input from faculty, staff, and students with the specific goals of improving college-wide retention of first-time freshmen by 15%; reducing the attrition of at-risk students by 10%; increasing the use of student services by 15%; and involving all credit students in orientation and advising programs. In fall 1992, 3 years after the program was initiated, fall 1991 and fall 1988 cohorts were compared. Improvements were seen in both fall-to-fall and first-to-second term retention rates. Though the project was initiated with Title III funding, the college intends to absorb all costs of maintaining the program by 1993-94. Information and sample materials on the student tracking, assessment, advisement, orientation, and intervention components are provided. (ECC)

MIDLANDS TECHNICAL COLLEGE COMPREHENSIVE STUDENT SUCCESS PROGRAM Midlands Technical College, Columbia, South Carolina

The effectiveness of colleges in meeting diverse student and community needs is a key issue of the 1990's. To assist in addressing these needs, Midlands Technical College has developed a comprehensive student success program that integrates planning, evaluation and college-wide resources to foster student success and institutional development. On-going retention initiatives and targeted service delivery systems, with established effectiveness indicators and standards that gauge the impact of these activities on student success, has led to a "quality assurance" approach that directs college energies and resources toward the development of involved, successful and satisfied learners.

(a) Description of the Institution

Midlands Technical College is a comprehensive, public, two-year community college, serving the Central Midlands of South Carolina. The college's 70 - plus academic programs and diverse services provide accessible, affordable, high-quality, post-secondary education that prepares over 8,600 credit students to enter the job market, transfer to senior colleges and universities, and achieve their professional and personal goals.

Achieving and sustaining excellence in programs and services to students are on-going commitments at Midlands Technical College. More than 95% of the college's 1990 graduates are employed or continuing their education; the average student pass rate on national licensing exams is over 90%; and 99% of alumni responding to a recent survey indicated that they would recommend the college to friends. Yet, in the Fall of 1988, when the college began experiencing significant enrollment increases of 10+% annually, it was found that over half of new students were being lost to attrition and that the number of students on academic probation had risen 4.5% over the previous year.

To address this situation and meet the challenges of achieving excellence in a climate of increasing student diversity, rapidly expanding enrollments and limited budgets, the college developed a comprehensive college-wide student success program. Student retention toward goal achievement became one of the college's indicators of effectiveness, along with indicators of student satisfaction with instruction and student satisfaction with college services.

(b) Description of the Success Program

The comprehensive college-wide student success program initiated by the college in 1989 is designed as a systems approach to impacting the success and retention of <u>all</u> students, while enabling the college to identify, monitor and assess changes in the progress of specific student sub-populations. A student tracking system has been designed to monitor the progress and retention of these student sub-populations, with the data from this tracking system being used with student grades, survey findings and other qualitative information to develop and modify student retention initiatives.

Key components of the comprehensive student success program are as follows:

- (1) Development of a year-to-year and term-to-term student cohort-tracking system that allows college personnel to monitor the progress of individual students and diverse student sub-populations. Information is available by academic program enrollment type and demographic characteristics.
- (2) College-wide training in customer service through the Noel-Levitz PARTNERS and CONNECTIONS programs.
- (3) Initiation of student educational plans at college entry, with identification of student goals, needs and background characteristics, for use in counseling, advisement, and student tracking.

- (4) A computer-based intervention and communication system connecting students with academic courses and student support services based on identified needs.
- (5) A growing emphasis on academic advisement, with the establishment of centralized advisement centers for entering students, faculty and counselor training in developmental academic advising, the development of academic advising manuals and the use of degree audit software for advisors to track student progress.
- (6) A broadened definition of student assessment, with assessment interfaced with advisement and orientation activities and course placement accuracy monitored for required adjustments in placement cut scores and course recommendations.
- (7) Increased orientation activities, with initiation of pre-enrollment "Student Orientation for Success Seminars" focusing on college success strategies for entering students.
- (8) Specific initiatives with targeted at-risk groups, with on-going evaluation of effectiveness. Among such initiatives have been:
 - curriculum restructuring and a change in grading systems for the Developmental Studies courses taken by <u>academically underprepared students</u>.
 - changes in the entry process to better integrate assessment, orientation and advisement for entering students.
 - greater attention to the needs of students with

undeclared majors, with these students being advised by career counselors until a major is selected.

greater focus on the needs of minority students,
with sessions on cultural diversity/sensitivity for
college staff, adoption of access and equity as a
major college goal, and the hiring of an access
and equity coordinator to monitor and coordinate
college efforts in this area.

(c) Development of the Program

The Comprehensive Student Success Program at Midlands Technical College has been developed from the college-wide input of faculty, staff and students, with representatives from these constituencies serving on a Retention Task Force. While the Task Force does not serve as a decision-making body, it does provide a cross-college forum for reviewing quantitative and qualitative retention data, discussing retention initiatives and planning/revising strategies based on the information reviewed. Responsible program and service areas are involved in retention planning, with advisory recommendations made to the college's Executive Staff.

Key factors impacting the success of initiatives thus far include:

- broad institutional representation on the Retention Task Force.
- the formation of sub-groups to spearhead specific initiatives.
 This has resulted in the involvement of more persons in targeted activities, the sharing of resources among different areas of the college, less duplication of efforts, and the focus of these different groups on common goals.

- sharing of information through retention reports, updates and open college forums.
- effectiveness indicators on student retention and student satisfaction, the inclusion of student success and access and equity as major college goals, and the provision of resources that support effective strategies have allowed elements of the Comprehensive Student Success Program to be integrated as on-going functions in the college.
- the freedom for academic programs and service areas to develop and "try out" initiatives that are thought to impact student success within available resources.
- using information derived from retention research in college planning and grants writing to further impact student success.

Challenges to the development of the Comprehensive Student Success Program have been:

- Keeping all areas of the college involved and informed in a timely fashion within a rapidly growing multi-campus environment.
- Maintaining student retention as a high priority during a time when enrollment growth is outstripping resources.

These challenges have been met through the broad-based involvement of college constituencies in retention planning, the sharing of information on student outcomes through college publications and open forums, and a strong college-wide focus on student success and institutional effectiveness.

(d) Specific Goals and Objective of the Retention Program

While the overall goals of the Comprehensive Student Success Program are to maximize student success, student satisfaction and student goal achievement, a series of six (6) objectives have been set forth by which to monitor institutional progress toward these goals. Within a five year period, from 1989 to 1994, Midlands Technical College seeks to:

- (1) improve college-wide retention of first-time freshman by 15%.
- reduce the attrition of targeted "high risk" students by 10%. (These groups include entering students, minority students, academically underprepared students, and students with undeclared majors.)
- (3) increase the utilization of student support services by 15%, with a 90% positive student satisfaction level with services obtained.
- (4) involve all credit students in college orientation and academic advising programs.
 - (5) increase the accuracy of academic student course placement by 20%.

(e) Results and Outcomes for Students and/or the Institution

In Fall 1992, three years after the Comprehensive Student Success Program was initiated, the Fall 1991 entering student cohort was compared to the cohort of students who entered in Fall 1988, before the Comprehensive Student Success Program was begun. Both cohorts were comprised of students entering the institution for the first time, with the cohort who entered in Fall 1988 tracked for one year to Fall 1989 and the Fall 1991 cohort tracked to Fall 1992. Included in each cohort were all students (full-time and part-time) enrolled in associate degree, diploma, certificate and "courses only" categories. "Leavers" and suspended students were calculated into attrition rates, while continuing students and graduates were considered retained.

Currently, students who transfer to four-year colleges are calculated in the attrition rates if they leave before completing a degree; however, a system is now being established in South Carolina to systematically track these students to four-year institutions. Once this new system is in place the attrition classification of transfers will be modified. In addition, data on student educational goals are now being collected at entry and up-dated each term so that retention information can be analyzed by student goal. The information provided in Figure 1 is based on the total entering cohort as previously defined, without regard to student goals, since goal data was not available for the 1988 cohort.

Figure 1 illustrates retention data on the total college cohort and targeted "high risk" groups. Brief information on initiatives set forth to impact the cohort is also provided.

Because the entering student first-time freshman cohort was also defined as a high risk group and initiatives set forth to address their needs, differences in the first-to-second term retention rates of the 1938 Fall cohort and the 1990 Fall cohort were also assessed. Figure 2 presents this information. Figures 3 and 4 graphically illustrates first to second year retention changes for the total college and for first-time freshman for the 1988, 1989, 1990 and 1991 Fall cohorts, tracked over a one year period. A continuous positive upward trend can be observed. Though gains in student retention cannot be directly attributed to any one retention initiative, it appears that the Comprehensive Student Success Program is contributing positively to student retention.

Figure 1

CHANGES IN THE RETENTION RATES OF TOTAL COLLEGE AND STUDENT SUB-POPULATIONS FOR FALL 1988 COHORTS COMPARED TO FALL 1991 COHORTS

	Fall 19	988 to Fall 1989 <u>% Retained</u>		11 to Fall 1992 % Retained	<u>+/-%</u>
Total College High Risk Groups	1,975	46.8%	2,209	53.9%	+ 7.1%
Academically Underprepared (Enrolled in All DVS Courses) • Curriculum Changed from Self-Paced to Lecture Lab • Grading System Changed form S/U to A*, B*, C*,	131	42.7%	383	58.2%	+ 15.5%
 Undeclared Majors Advising Changed, with Career Counselors as Academi Advisors for Undeclared Majors Improved Admissions Counseling 		34.0%	127	49.6%	+ 15.6%
Minority Students Focus on Access/Equity Customer Service Training Training in Cultural Diversity and Cultural Sensitivity Identification of Student Needs with Intervention Based on Needs	485	44.4%	598	54.4%	+ 10.0%

Figure 4

FRESHMAN TO SOPHOMORE RETENTION RATES OF FIRST-TIME FRESHMEN

8-В

As indicated by the retention data, significant positive changes have been observed in student retention at Midlands Technical College over the last three years. Though only three of the five years specified in the objectives have passed, the college has made major strides in meeting the identified goals. Additional outcomes related to the objectives also have been observed:

- * Increases of 10+% in student use of all student support services (Counseling, Financial Aid, Student Activities, etc.)
- * 90+% student satisfaction rates with nearly all instructional and student service areas.
- * Involvement of 65% of entering students in orientation activities and 100% of entering students in the academic advising program.
- * Increases in course placement accuracy, with the academic success rates (defined as 2.0 GPA or better) of students assessed on the college placement test yielding success rates of 80-95% in targeted entry-level courses. At the same time the GPA if retained students has increased sightly.

(f) Use of Resources

In 1989 Midlands Technical College acquired Title III funding to design the retention tracking system, obtain consultive services from national experts, develop an integrated assessment-orientation-advisement process, and provide training to college faculty and staff on customer service, developmental academic advising, and cultural diversity. Because Midlands Technical College is committed to student success and realizes that grant funding such as Title III is developmental in nature, the Title III grant was written with the college assuming 25% of the costs per year. At present, the college has assumed 75% of grant costs, with 100% to be absorbed by 1993-94. Funds generated from student enrollments because of increased retention has added to college self-sufficiency for assuming these costs.

In addition, all grant activities have been integrated throughout the college. Initiatives have arisen from the resources of college units such as Educational Affairs, Student Development Services, Marketing,

Research and Analysis, Computer Services and others, in a combined effort to foster student and college development. At the same time, information obtained from student tracking data, student educational plans, and student needs data have been used to obtain additional resources from external funding sources. These have resources included a grant from Clemson University to address the needs of minority students and a variety of state, federal and other funds to meet the needs of targeted at risk groups. Including Title III funds, the college has acquired over two million dollars of funding to address the needs of diverse student groups since 1989.

(g) Potential for Adaptation by Other Institutions

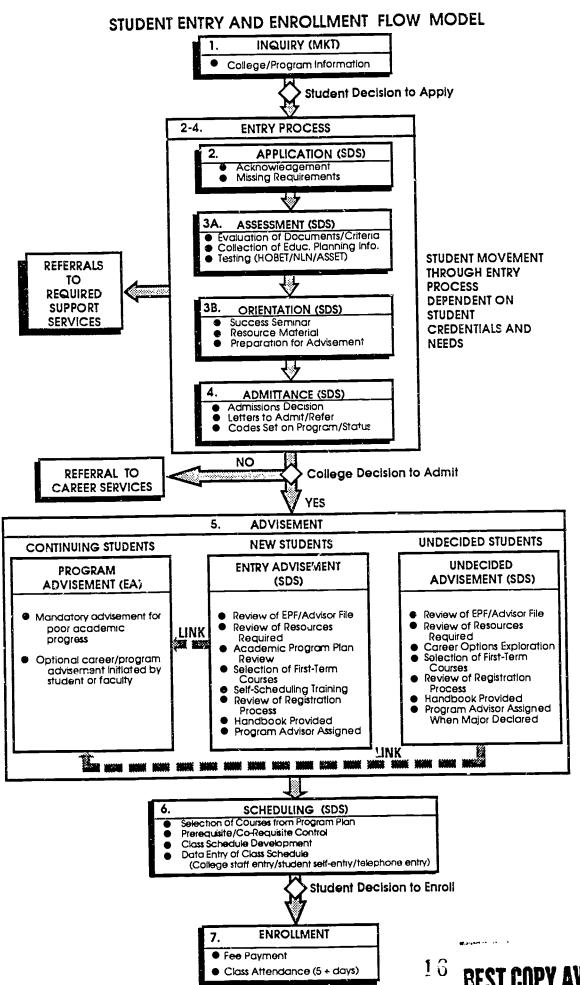

The initiatives set forward by Midlands Technical College can be readily adapted by other two and four year colleges. Some aspects of the Comprehensive Student Success Program, such as the component related to customer service training and various student survey forms, are available force purchase from organizations such as the Noel-Levitz Center for Student Retention, Inc. and American College Testing. Other aspects, such as the student tracking system, advising processes, Student Orientation For Success" seminars and communication formats for sharing retention informat on, were developed in-house. For these, prototypes are available from Midlands Technical College and are being shared with other colleges through on-campus visitations and regional and national enferences. representatives from over thirty (30) colleges have visited Midlands Technical College during 1990 to 1992 to gain knowledge related to various student success strategies that impact positive student outcomes and college development.

- Evaluation of Advisement via Student Surveys and Assessment of Course Placement Accuracy

DEVELOPMENTAL ACADEMIC ADVISING

L. DEFINITION OF DEVELOPMENTAL ACADEMIC ADVISING

An effective developmental academic advisement system is one in which advisement goes beyond mere schedule building to assisting students in exploring their potential, clarifying their goals, and learning to use the resources of the college to meet their educational needs and aspirations.

II. ADVISOR ROLES

Advisors serve in at least three roles: managerial, informational, and developmental. In the managerial role, advisors insure that students register for courses consistent with their abilities and needs. They assist students in coping with the paperwork necessary for registration and other college procedures.

Advisors also serve as a source of information. Using the Advisement Manual, the college catalog, and the class schedule, advisors should be able to answer most questions concerning academic policies and procedures. When unable to provide needed information, advisors refer students to the office where they can obtain additional assistance.

In the developmental role, the advisor is willing to listen with empathy when a student voices concerns and he refers students to other campus services if necessary. The developmental role also involves aiding students in improving their decision-making skills and assisting students in career planning decisions.

III. ADVISOR RESPONSIBILITIES

- 1. Maintain a complete and accurate file on each advisee.
- 2. Take an interest in the student's objectives, growth, and success and create a positive environment encouraging student participation in the registration process.
- 3. Develop a rapport with the student and be sure he knows you are a professional and an interested person.
- 4. Help the student develop an awareness of his strengths, interests, and abilities.
- 5. Motivate, cause motivation, and capitalize in academic planning on those things which will enhance motivation. For example, match some courses early in the program to the student's academic strengths, interests, and background, if possible.
- 6. Monitor the student's adjustment to college.

III. ADVISOR RESPONSIBILITIES CONTINUED

- 7. Be knowledgeable of available resources in order to make appropriate suggestions and referrals to meet student needs and interests.
- 8. Know College rules, procedures, and policies which affect academic programs and activity.
- 9. Work with Career Counseling to assist students in establishing realistic educational and career goals.
- 10. Help the student examine the course offerings in his major and understand the graduation requirements for that major.
- 11. Encourage the student to become familiar with program requirements and to accept responsibility for course choices and decisions.
- 12. Follow up o student problems and progress.
- 13. Exercise real judgement in guiding the student based on your knowledge of the above items and your experience working with advisees.
- 14. Be available (be sure your program secretary is aware of your schedule and the times advisees can get in touch).
- 15. Participate in advisor training for your program area.

IV. STUDENT RESPONSIBILITIES

- 1. Give thoughtful consideration to personal, educational, and career goals.
- 2. Become familiar with program requirements and accept responsibility for course choices and decisions.
- 3. Make and be on time for all scheduled advising appointments.
- 4. Discuss problems encountered with school work, study habits, and academic progress.
- 5. Ask questions concerning confusing information and procedures.
- 6. Develop a tentative schedule of classes each quarter before meeting with an advisor.
- 7. Make decisions and keep good records of all MTC transactions.
- 8. If planning to transfer to a four-year college, contact an advisor in the prospective major at that institution to obtain appropriate information about the future degree.

22

INTERVIEWING TIPS AND QUESTIONS

THE ADVISING INTERVIEW

Suggestions for improving communication:

- 1. OPENING Greet students by name, be relaxed, warm. Open with a question e.g. "How are things going?" or "How can I help?"
- 2. PHRASING QUESTIONS Conversational flow will be cut off if questions are asked so that a "yes" or "no" reply is required. A good question might be, "What were your favorite subjects in high school?" or "What are some things that have made you think about business as a career?"
- 3. OUT-TALKING THE STUDENT Good advising is effective listening.
 Listening is more than the absence of talking. Identify the fine shades of feelings behind the words.
- 4. ACCEPTING THE STUDENT'S ATTITUDES AND FEELINGS A student may fear that the advisor will not approve of what he says. Advisors must convey their acceptance of these feelings and attitudes in a non-judgmental way. Cardinal principle: If the student thinks it is a problem, the advisor does too.
- 5. <u>CROSS-EXAMINING</u> Do not fire questions at the student like a machine gun.
- 6. <u>SILENCE IN THE INTERVIEW</u> Most people are embarrassed if no conversation is going on. Remember, the student may be groping for words or ideas.
- 7. REFLECTING THE STUDENT'S FEELINGS Try to understand what the stodent is saying. For example, it is better to say, "You feel that instructor is unfair to you" rather than "Everyone has trouble getting along with instructors sometimes."
- 8. ADMITTING YOUR INGNORANCE If a student asks a question regarding facts and you do not have the facts, admit it. Go to your resources for the information immediately or call the student back.
- 9. SETTING LIMITS ON THE INTERVIEW It is better if the advisor and the student realize from the beginning that the interview lasts for a fixed length of time.
- 10. ENDING THE INTERVIEW Once limits have been set, it is best to end the interview at the agreed time. A comfortable phrase might be, "Do you think we have done all we can for today?" or "Let's make another appointment so that we can go into this further."

23

INTERVIEWING QUESTIONS

The following are examples of possible questions for helping students to become aware of the choice process.

SELF-EXPLORATION

Why are you in college?

What does a college degree mean to you?

As far back as you can remember, what general occupational fields have you thought

What subjects did you enjoy in high school? In what subjects were your best grades?

Do you consider your strengths are in the math/science areas or in the social sciences?

What type of extra-curricular activities did you take part in high school? Which were the most enjoyable? What did you learn about yourself from them?

- What are your best personal qualities? What do your friends like the most about you?

- What do you see as your limitations?

- Name the highest point in your life so far (your greatest accomplishments). about the experience made it special?
- In what kind of work environment do you picture yourself in five years out of college?

- If you have a spare hour to use, what do you do?

ACADEMIC MAJOR/OCCUPATIONAL INFORMATION

- What academic areas are you currently considering? What do you like about these areas?
- What occupations are you considering? What about these occupations attract you?
- How do your abilities and skills fit the tasks necessary to succeed in these areas? Will these occupations provide the rewards and satisfactions you want for your life?
- Why? What are the differences among the majors (occupations) you are tentatively

considering? The similarities? Who has influenced your ideas about these alterntives?

DECISION MAKING

- Do you ever have trouble making decisions? Little ones? Important ones?
- How do you generally go about making a decision? Describe the process.

- What specific strategies do you use?

- Do you use the same method for all types of decisions?

- Would you describe yourself as a spontaneous or a systematic decision maker? - Do you make decisions by yourself or do you need other people's opinions first?

- Are you feeling anxious about deciding about a major? Pressured?

- How long do you think it will take you to make a decision? How long do you want it to take?

SUMMER 1992

COURT REPORTING Associate in Business (CRP)

DESCRIPTION:

The six-semester Court Reporting program is designed to prepare persons for the profession of court reporting. This profession requires development of extremely high machine shorthand and transcription skills. Upon completion, students are qualified for high-paying jobs in county and state courts, with government agencies or with private firms which report conventions or hearings.

BEGINNING SEMESTER: FALL

CAMPUS: AIRPORT -DAY ONLY

ADMISSION REQUIREMENTS:

MTC ASSET SCORES

RDG

40

MAT

NUM-40

W-1

ENG

TYPING SPEED - 40 NWPM

SAT 750

ACT 15V, 15 Composite

GRADUATION REQUIREMENTS:

A minimum of 83 semester credit hours is required for graduation.

ALG-36

ALL COURSES IN BUSINESS DIVISION MUST HAVE A GRADE OF C OR BETTER TO BE USED FOE GRADUATION FROM PROGRAM.

The Court Reporting program is fully accredited by the National Court Reporters Association which sets speed requirements for graduation as follows:

1. Shorthand Speed: a minimum of two 5-minute tests with 98% accuracy on:

225 wpm Q & A (two voice)

200 wpm jury charge

180 wpm literacy

PROGRAM NOTES:

1) Students may enter the program during any semester but may begin the machine shorthand classes only during the fall semester.

2) The semester by semester sequence for the program requirements must be followed as courses are generally only offered one time each year. For exceptions, please call Sandy Burgess or J. Linder-Lambert.

3) Students must purchase their own shorthand machine (approximate cost: \$400) and maintain adequate supplies of machine tape.

4) In order to complete the program successfully, students will be expected to practice machine shorthand from 3 to 6 hours per day in order to acquire the necessary level of speed and accuracy to qualify them as court reporters.

5) General education courses may be taken during any semester provided all prerequisites have been

6) LEG 135 is required for all court reporting students.

7) One general elective, one humanities elective and one scientific elective (other than CRP courses) totaling 9 semester hours must be completed.

UNDECIDED PROGRAM

Non-degree program (UND)

DESCRIPTION:

The Undecided Program is designed to assist a student in selecting a major at MTC. It is not designed for students who are interested in transferring to a four-year college, even if they have not decided on a major. These students should enter the AA or AS program.

ADMISSIONS REQUIREMENTS:

MTC ASSET SCORES

40 RDG

ALG-36 NUM-40 MAT

W-1 ENG

SAT 750 (Minimun Verbal 320)

PROGRAM NOTES:

1) All Undecided students must see a career counselor for advisement.

2) Undecided students who are planning to transfer to a four-year college should be in the Associate of Arts or the Associate of Science program. Advise these and others who should not be coded as undecided students to change there program officially through the Career Services Office.

3) Students who have exceeded the 12 semester hours (non-DVS) limit at MTC or other colleges are ineligible to enter the undecided program. They may meet with a Career Counselor to choose a major prior to Advisement.

4) If an Undecided student has earned 12 semester hours (non-DVS) credits at MTC, he must go to Career Services and choose a major prior to advisement.

ORIENTATION

- ► Pre-Enrollment "Student Orientation for Success" Seminars
 - Orlentation of College and Student "ASSETS"
 - Materials and Information on College Procedures and Services
 - Student Success Strategies for College
 - Review of Student Educational Plans
 - Test Results and Recommended First-Term Courses
 - Preparation for Advisement
- Specialized Courses for Targeted Populations
 - Developmental Studies Courses for Academically Underprepared Students
 - IDS 100
 - COL 103

Orientation materials for individualized orientation

STUDENT ORIENTATION FOR SUCCESS (SOS) LEADER'S GUIDE

PRE-ORIENTATION ACTIVITIES

- (i) Welcome and Overview of Assessment/Orientation/Advisement Process
- forms completion (2) Educational Planning: (a)
 - use of testing and educational (b) planning data
- (3) Test Administration (2 hrs. 45 min. including breaks)

STUDENT ORIENTATION FOR SUCCESS SESSION

GREETINGS AND INTRODUCTION (5 minutes) L

- . Introduce self/glad to have opportunity to meet with them
- . Briefly discuss testing experience-now opportunity to relax,
- . Ask for students who have previously attended college. Invite to share helpful suggestions for college success
- . Overview of SOS session (success strategies, student rights and responsibilities, services available, student involvement opportunities, test results interpretation and preparation for advisement)

STRATEGIES FOR SUCCESS (45 minutes) П.

(A) Partnership Linkage Between Student and College (5 minutes)

- No guarantees but success strategies help (p.l, "Disclaimer")
- Feelings students are experiencing (excitement, opportunity,
- College Assets (use MTC Facts book for information)
 - (a) Knowing what facillitates student success
 - (b) Knowledgeable faculty/staff, small classes; attention to students
 - (c) Services and resources
 - (d) State of the art programs
- Student Assets
 - (a) Positive attitude
 - (b) Eagerness to learn
 - (c) Life's experiences
 - (d) Readiness for commitment/responsibilities

Image of a Successful Student (40 minutes) **(B)**

- Administer "Responsibilities", "Study" and "Advisement" checklists (p.2-4 of SOS Packet) (5 - 10 minutes)
- Use "Responsibilities" checklist as a discussion tool, incorporating all lists

1. Student Responsibilities

- . Identify goals, strengths, weaknesses
- . Consider personal, educational and career goals (career information; undecided students)
- . Identify "help resources" to build on your strengths and help overcome weaknesses
- . Know program requirements (review catalogue)
- . Accept personal responsibility for course choices
- . Keep in touch with advisor each term
- . Know your advisor's name, location and office hours
- . Discuss problems with schoolwork, study habits and academic progress with advisor or counselor
- . Become familiar with the college catalogue and student handbook
- . Ask questions concerning policies and procedures you don't understand (drop/withdrawal;academic progress; student rights and responsibilities)
- . Inform appropriate personnel (advisor, Student Records Office) of any changes in name, address and phone number.

2. College Survival Skills

- . Become a good time manager (weekly schedule, daytimer, handbook, "to do" list)
- . Keep a file folder for each class, including syllabus, assignments, grading system, record of class attendance and instructor contact information (name, office location, office hours). "College is a job."
- . Have appropriate materials for class
- . Read assignments and do homework prior to class
- . Sit in front of class
- . Be attentive in class
- . Take good, systematic notes
- . Develop a study plan (where, when);ENG 128 "Study Skills"
- . Review daily
- . Study more difficult subjects first
- . Participate in class
- . Ask questions

- . Apply subjects to your future career
- . Check your attitude and effort level
- . Form or participate in study groups
- . Turn in assignments on time (neat, orderly)
- . Take advantage of extra credit opportunities
- . Plan enough time to prepare for examinations
- . Avoid all night marathons
- . Learn to say "No" to outside demands, if necessary
- . Do not miss quizzes or tests
- . Contact instructor before the class if you find it necessary to miss class
- . Become familiar with the "help resources" on campus available to you

III. CAMPUS SERVICES AND RESOURCES (10 minutes)

- Listed in SOS guide (p. 5 7); reference SOS guide, student handbook, information card.
- Examples:
- . Counseling Services (personal problems, career planning, academic difficulties, health problems, disabilities)
 - . Tutorial Services (academic difficulties in specific subject
 - . Job Placement/JLD (full-time or part-time jobs off campus)
 - . Financial Aid (grants, loans, CWS, scholarship information)
 - . Student Life (clubs, intramural activities, student newspaper, leadership and involvement activities)
 - . Developmental Studies (positive focus -- allows skills building. Over two-thirds of entering students require some kind of skills building; see DVS information sheet for specific information on DVS courses)

IV. ASSET RESULTS AND INTERPRETATION (10 minutes)

- Refer to Educational Planning Form
 - . Check identifying information
 - . Background information

 - . Help requested and campus resources recommended
 - . Results (Review ASSET Interpretation Sheets for guide)

33

<u>Test</u> §	Scale Score	Course Requirments
Reading Skills Writing Skills	•	•
Writing Sample Numerical Skills Elemenatary Alge	ebra •	•

* Student may need to take Intermediate Alegebra test if Elementary Algebra score is 36 or above and the student is in College Transfer Program or Engineering Technology and MAT 144 is first math course.

V. <u>ADVISEMENT LINKAGE</u> (5 minutes)

A. Next Steps

Make appointment with appropriate advisor. The advisor will review your educational plan, help you select the first courses in your program of study and discuss relevant program and enrollment information. After advisement you will only need to have your approved courses entered into the college registration system and pay fees.

B. Advisement Contact Points:

- . New Student Advisement Center
 - All new students, including Career Development students with entry-level courses
- . Departmental Advisement
 - (a) Readmit students
 - (b) Transfer students
 - (c) Career Development students desiring advanced courses
 - (d) Continuing students
- . Developmental Studies Department Advisment
 - Continuing Allied Health and Nursing students with reading scores below 40.

AT-RISK STUDENT INTERVENTIONS

All Students

- Student tracking by sub-population to assess intervention needs and effectivenss of various strategies
- Identification of student needs via educational plan and tested skills
- Placement in targeted developmental academic and college success courses (Study skills, College Orientation, Cultural Contexts, Critical Thinking, etc.) based on student needs Referral to Seminars Based on Student Needs
 - Test-taking
 - Time-Management
- Letter generation system linking student needs to follow-up letter and services of specific departments

Academically Underprepared Students

- Curriculum in Developmental Studies classes changed form self-paced to Lecture/Lab to better bridge the transition from prepartory to college-level coursework
- Grading system in Developmental Studies changes from S/U to A*, B*, C*,...
- Greater articulation between Developmental Studies and college-level discipline courses in terms of curriculum content and instructional methodologies
- Improved course placement into appropriate entry-level courses

AT-RISK STUDENT INTERVENTIONS (CONT.)

Undeclared Majors

- Increased use of educational planning information in admissions and advisement
- Use of "Student Orientation for Success Seminar" and follow-up on identified student needs
- Change in advisement structure, with career counselors serving as advisors for undecided students until a major is declared
- Enrollment of undecided students in a special academic program for undecided majors, with courses in career exploration and decision-making
- Special seminars and individual counseling for targeted students who have not declared a major or have indicated that they are unsure about their chosen major and would like assistance in career planning

Minority Students

- College-wide emphasis on access and equity, with access and equity as one of the major college goals
- Faculty and staff training in Customer
 Service and cultural awareness
- Identification of student needs, with interventions based on needs
